Personalization of articles made from innovative recycled PES bottles and all other types of ecological fibers for yachting, hotels and all businesses

Our Exclusive collection is offering a special attention to chef, crew ladies on board for yachting & for hotels and restaurants .

You can choose fabrics and options in order to reach all their unique styles.

Our Style consultancy will help you to choose the style, and fabrics that will best suit you.

# Dr. Fit

*Claudia Signature*  
MONTE CARLO

*Designing clothes is her passion. She initiated her activity with bespoke shirts and suits for individual clients. She values the fact that people can feel comfortable all day long wearing pleasurable materials in cuts that reflect their individuality and give them freedom of movement. Claudia's fashions have a touch of tradition, originality, elegance, sportiness and ease.*

*Her passion for the sea and her involvement in Monaco have driven her to conceive fashion designs in innovative, sustainable fabrics. Thanks to her commitment to preserve the environment, Claudia opts for giving a second life to certain materials; she creates new enriching value by using plastic materials recycled from the sea. With her eco-friendly creations, Claudia is also specialised in supplying personalised, logoed and embroidered garments and uniforms for all professionals in yachting, hotels and restaurants, as well as in boutiques.*

## RECYCLED COTTON

RECYCLED COTTON fabrics, manufactured with cotton recycled and waste fabrics, reduce our use of virgin cotton and thus the significant water, CO<sub>2</sub> and other impacts from cotton farming.

HIGH QUALITY  
RECYCLED FIBER  
KEEP HAND-FEEL  
CONTROLLED TRACEABILITY  
REDUCES WASTE  
CONSERVES RESOURCES  
MORE ECOLOGICAL PRODUCTION

OFFICIAL ECO-FRIENDLY CERTIFICATES

\*Certificates based on composition percentages

## recycled polyester

Recycled polyester is made from recycled materials [PET and polyester fabrics].

THE ENERGY NEEDED TO MAKE THE RPET IS LESS THAN WHAT IS NEEDED TO MAKE THE VIRGIN POLYESTER.

RECYCLING PET TO CREATE THE FABRICS PREVENTS IT FROM GOING TO LANDFILL.

USING MORE RECYCLED POLYESTER REDUCES OUR DEPENDENCE ON PETROLEUM AS THE RAW MATERIAL FOR OUR FABRIC NEEDS.

OFFICIAL ECO-FRIENDLY CERTIFICATES

\*Certificates based on composition percentages

With a vertical production process with controlled traceability, we recycle some of the plastic collected, turning it into granules, yarn and fabric based on responsible manufacturing. The result are recycled fabrics meeting all quality standards.

OFFICIAL ECO-FRIENDLY CERTIFICATES

\*Certificates based on composition percentages

We help clean rubbish from the oceans with the aid of fishermen

We select plastic from the Mediterranean to obtain PET (polyethylene terephthalate) chips or pellets

We turn plastic into polyester yarn to make fabrics

We make recycled polyester fabrics in a responsible, traceable, green production process

At the weaving phase, the polyester of marine origin is mixed with other ecological, natural, recycled or recovered fibres.

TENCEL +30% ORGANIC COTTON RECYCLED COTTON BIO COTTON RECOVERED LINEN

We apply ecological dyes and finishes based on saving water and energy, completing a vertical, eco-friendly process
